

'Wide-ranging and interdisciplinary, this excellent collection brings authoritative international voices to some of the most important moral, legal and regulatory challenges of our time. It will be essential reading for scholars, students and practitioners of the ethics, governance and social impacts of artificial intelligence.'

HUW PRICE, Bertrand Russell Professor of Philosophy, University of Cambridge

SILJA VOENEKY is a leading scholar in the field of the interdependence of ethics and public international law, and the governance of emerging technologies. She is Professor of Public International Law, and Comparative Law at the University of Freiburg and was a Fellow at Harvard Law School. She previously served as a member of the German Ethics Council. Since 2001, Voeneky has been, inter alia, a legal advisor to the German Federal Foreign Office, and the German Federal Ministry of Environment. She is an author and (co-) editor of several books, as S. Voeneky and G.L. Neuman (eds), *Human Rights, Democracy, and Legitimacy in a World of Disorder* (2018).

PHILIPP KELLMEYER is a neurologist and neuroscientist at the University Medical Center Freiburg. In his neuroscientific work, he investigates language processing in the brain and the clinical application of braincomputer interfaces, virtual reality and other digital technologies. Through his contributions to neuroethics, he has become an international expert on ethical aspects of neuroscience, neurotechnology and AI.

OLIVER MUELLER is Professor of Philosophy with a focus on technology and on contemporary philosophy, University of Freiburg and a Senior Fellow at the 2018–2021 FRIAS Saltus Research Group 'Responsible AI'.

WOLFRAM BURGARD is a leading researcher in Robotics and Artificial Intelligence. He co-authored more than 400 publications including the famous book 'Probabilistic Robotics'. He received numerous awards including the Gottfried Wilhelm Leibniz Prize, the most prestigious German research award and is Fellow of several societies.
