

HUMAN RIGHTS AND SOCIAL JUSTICE LLM

Integrate your knowledge of human rights through multiple avenues, including policy, health care, business, and non-profits.

Through the Human Rights Institute at Storrs, students have access to research clusters centered on health and human rights, humanitarianism, and economic and social rights.

“

Studying alongside so many incredible faculty and students in the Human Rights and Social Justice LLM expanded my view of the criminal justice system and its effect on our entire community.

”
